Rice is up 76% in a year

Rough rice reached $398.60/t on Nov 2 in the Feedsoft benchmark, the highest reading in the past 52 weeks.

Nearly double its 52-week low

The low was $206.79/t. The latest reading of $398.60/t is the high, so the price has almost doubled from bottom to top of the range.

Still moving: +1.0% on the day

Annualised volatility is 23%, a measure of how much the price typically swings over a year. The latest daily move was +1.0%.

What it means for buyers

If rice is in your formulas, you are buying at the top of the past year's range. Compare it against alternative ingredients before your next quote.
